again promoted out of England, and with his departure for Canada Mr. Duncombe's chance of office may be said to have set for ever. Thenceforth he appears in the character with which the present generation is must familiarthe good natured allable gentleman, the "ladies" man" with his Finsbury constituency, the last of the dandies in May Fair, the dilettante Radical in the House of Commons. In Parliament he constituted himself redresser-general t of grievances and exposer-general of jobs. In this character he was perfectly impartial. If p. be sided in the escape of Louis Napoleon from the fortress of Ham, he had been equally solited citous to procure the release of Prince Polignac. He was just as active in pressing the restitution of the Duke of Brunawick's diamonds as is lin plending for the liberation of the Obartist prisoners. He had and that was the strong top point in his character-a real hatred of into justice and oppression, however fenced round with forms, prescription, or privilege. But ara, like many men of similar ideas, who have not ams abilities to match, he became in time the dupe re of his own zeal, and saw wrongs and mysteries or and trickery in the most necessary procedures n of government. Still it is the happy fortune e of men of this description that the good which he they are able to accomplish in a right cause is wes malloyed by any harm that they are capabe ble of effecting in a wrong one. His defence ro- of Kossuth, when the police seized his shells as and rockets, and afterwards his paper-money; for his advocacy of the case of Colonel Dickson out against Lord Wilton and Lord Combermere; cal | really did no harm to any one, however much eat the advocate was wrong. On the other hand, his brush with Sir James Graham about postoffice espoinage; his exertions in favour of tre, Thorogood, the imprisoned Dissenter; his good-burnoused banter of the Board of Health; Say: his speeches on Merlicul Heform, were all usested ful in their way, and have left good results betoh. hind them. Duncombe was not a man of suffi he gient intellectual power to make his profession of and extreme political views dangerous to the State, and whereas he had just the manners, and the poail | pularity, and the social position to make him a 1 sure of a bearing when he had a real grievance ves, to expose. Nobodyminded Tommy Duncombe ude as a Radical—every one liked him as a philanthrepist. In the first character he was pass line and respectable. When he tried to ride book the high historic horse, when he tilted at great institutions, he was often made to look foolieh; rays but on a humbler animal and against abuses. nts, which he understood, he did good service to the one public. The two sides of his character appear to us very well symbolized by the two actions of his life which begin and end the last chapter. and This begins with an unsuccessful assault upon the Tower of London, and ends with the triumphant demolition of a tarapike gite. Of Mr. Duncombe's domestic affairs we are i these volumes told nothing; and we have no
